However, for downhill and 4-cross mountain bike events, BMX, trials and indoor cycling, specific provisions are laid down in the part of the regulations concerning the discipline in question.

(text modified on 1.01.02; 1.01.04; 1.01.05).

- 1.3.027** Jerseys shall be sufficiently distinct from world champions', UCI cup and classification leaders' and national jerseys to avoid confusion.

- 1.3.028** Save in cases expressly provided for in the regulations, no distinctive jersey may be awarded or worn.

- 1.3.029** No item of clothing may hide the lettering on the jersey or the rider's identification number, particularly in competition and at official ceremonies.

(text modified on 1.01.05).

- 1.3.030** Rain capes' design must be transparent or be similar to the jersey by use of one of the principle team colours. The team's name must be displayed on it.

(text modified on 1.01.00; 1.01.15).

- 1.3.031** 1. Wearing a rigid safety helmet shall be mandatory during competitions and training sessions in the following disciplines: track, mountain bike, cyclo-cross, trials and BMX, para-cycling, as well as during cycling for all events.

2. During competitions on the road, a rigid safety helmet shall be worn.

- wearing the helmet in accordance with the security regulations in order to ensure full protection, including but not limited to a correct adjustment on the head as well as a correct adjustment of the chin strap;
- avoiding any manipulation which could compromise the protective characteristics of the helmet and not wearing a helmet which has been undergone manipulation or an incident which might have compromised its protective characteristics;

(text modified on 5.05.03; 1.01.04; 1.08.04; 1.01.05; 1.02.07; 1.07.11 ; 1.01.15).

1.3.032 [abrogated].

1.3.033 It is forbidden to wear non-essential items of clothing or items designed to influence the performances of a rider such as reducing air resistance or modifying the body of the rider (compression, stretching, support).

Items of clothing or equipment may be considered essential where weather conditions make them appropriate for the safety or the health of the rider. In this case, the nature and texture of the clothing or equipment must be clearly and solely justified by the need to protect the rider from bad weather conditions. Discretion in this respect is left to the race commissaires.

The use of shoe covers is prohibited during events on a covered track.

Equipment (helmets, shoes, jerseys, shorts, etc.) worn by the rider may not be adapted to serve any other purpose apart from that of clothing or safety by the addition or incorporation of mechanical or electronic systems which are not approved as technical innovations under article 1.3.004.

(text modified on 1.01.02; 1.01.04; 1.04.07; 1.10.10; 1.02.12).

Mountain Bike related general provisions

Distinctive Jerseys

- 4.2.070** Stages races are assimilated to XCO, therefore XCO World Champions, and the XCO National Champions must wear their champion jersey.
XCM World Champions and National XCM Champions cannot wear their champion jersey on the occasion of stage races.

(text modified on 1.02.12)

Downhill event

- 4.3.011** All lycra-elastane based tight-fitting clothing is not permitted.
- 4.3.012** A full-face helmet must be worn properly both when racing and when training on the course. The helmet must be fitted with a visor. Open-face helmets may not be worn.
- 4.3.013** The UCI strongly recommends that riders wear the following protection:
- back, elbow, knee and shoulder protectors made of rigid materials;
 - protection for the nape of the neck and the cervical vertebrae;
 - padding on shins and thighs;
 - broad full-length trousers made from rip-resistant material incorporating protection for the knees and calves, or broad-cut shorts made from rip-resistant material plus knee and calf protectors with a rigid surface;
 - long sleeved shirt;
 - full finger gloves.

National federations may impose in their national regulations and under their responsibility the use of other protections than helmets including for international events on their territory. The national federations are responsible for monitoring compliance with such regulations to the exclusion of UCI.

A rider not wearing the protection imposed by the national federation in an international event shall be banned from the race by the commissaires' panel only at the request of a representative of the national federation and under the responsibility of the latter.

Comment: the riders shall inquire about any applicable national federation regulation. The use of protective gear other than helmets may also be imposed by national legislation. The rider shall inquire about this. Compliance with such legislation is the exclusive responsibility of the rider.

A wide variety of equipment is available on the market that is presented and sold as protective gear.

Some of these are provided by reputable manufacturers that may be expected to produce quality products.

Yet, and except for helmets, there seem to exist no official technical norms for protective gear as referred to in the above article.

Therefore it is not known at this time to what extent items that are sold as protective gear provide effective protection, as the concept, the quality, etc. have not been tested and compared with an applicable official technical standard.

It is not known either whether gear that provides protection in a certain type of crash might provide or fail to provide the expected protection in another type of crash.

Likewise the combination of different types of protections may not be adequate. For example a neck protection may not fit with a back protector.

Therefore riders must pay attention to the quality and characteristics of the gear, seek advice of experienced riders, coaches or technicians, procure the gear from professional and reliable suppliers and rely on their own judgment.

The rider shall be responsible for the choice of the gear and for its use, in accordance with articles 1.3.001 to 1.3.003.
